

Note: An error was discovered with regard to the US Route 2 High Crash Locations (HCLs). Three crashes were counted as part of each of the two HCLs. VTrans has been notified of this discrepancy and is working to correct the information. Until then, the two HCLs within the study area combine to yield 45 crashes and not 48 as indicated in the alternatives presentations.

FYI – Mile markers count up from west to east and south to north. Key mile marker locations are listed below for each respective roadway.

US Route 2

- Mile marker 1.84 - slip ramp to I89 southbound from US2 eastbound
- Mile marker 1.94 - signalized intersection at the southbound ramps
- Mile marker 2.01 - center of the US 2 bridge
- Mile marker 2.05 - yield controlled slip ramp from I89 northbound enters US 2
- Mile marker 2.11 - signalized intersection at the northbound ramps
- Mile marker 2.19 - Chimney Corners intersection

US Route 7

- Mile marker 6.52 - Chimney Corners intersection
