

Meeting on Circ highway alternatives set for Dec. 14

A public meeting on the recommendations of the Circumferential Highway Alternatives Task Force has been set for 7 p.m., Dec. 14, at the Albany College of Pharmacy and Health Services.

The college is located at 261 Mountain View Drive, Colchester.

In May, Gov. Peter Shumlin announced the Circ would not be built as planned. He asked the Chittenden County Regional Planning Commission to coordinate identification of projects and planning activities to address questions of traffic congestion and **safety** in the Burlington area.

The Alternatives Task Force has recommended a package of projects to improve traffic flow. Learn more and submit comments **online** at www.circtaskforce.org.
