

FY2018 ANNUAL REPORT

Jericho

The Chittenden County Regional Planning Commission (CCRPC) is a political subdivision of the State created by the municipalities of Chittenden County in 1966 for the development of policies, plans and programs that address regional issues and opportunities in Chittenden County. Its vision is to be a pre-eminent, integrated regional organization that plans for healthy, vibrant communities, economic development, and efficient transportation of people and goods while improving the region's livability. The CCRPC serves as the region's federally designated metropolitan planning organization (MPO) and is responsible to all citizens of the region to ensure the implementation of the best regional and transportation plan for Chittenden County. The CCRPC also provides technical and planning assistance to its member municipalities and the Vermont Agency of Transportation (VTrans).

The CCRPC is governed by a 29-member board consisting of one representative from each of the County's 19 municipalities; transportation representatives from VTrans, Green Mountain Transit (GMT), Federal Highway Administration (FHWA), Federal Transit Administration (FTA), Burlington International Airport (BIA), and a rail industry representative; and, at-large members representing the interests of agriculture, environmental conservation, business, and housing/socio-economic. The legislative body of each Chittenden County municipality selects its own representative and alternate. The full CCRPC selects the at-large representatives.

The CCRPC appreciates the continued opportunity to work with its municipal members to plan appropriately for the region's future to protect and improve the special quality of life that is shared throughout Chittenden County. In FY18, the CCRPC invested more than \$5.7 million in regional land use, transportation, emergency management, energy, natural resources, public engagement, training, and technical assistance. The program leverages more than \$5.3 million in Federal and State investment with \$245,000 in municipal dues and another \$132,000 in local match for specific projects—a **14:1 return on local investment**.

Jericho representatives to the CCRPC Board and other committees in FY18 were:

- CCRPC representative – Catherine McMains
- CCRPC alternate – Kim Mercer
- Transportation Advisory Committee (TAC) – Katherine Sonnick
- Planning Advisory Committee (PAC) – Katherine Sonnick
- Clean Water Advisory Committee (CWAC) – Katherine Sonnick
- All-Hazards Mitigation Plan Update Committee – Todd Odit
- Long Range Planning Energy Sub-Committee- Catherine McMains

Specific activities the CCRPC is engaged in with Jericho, as well as some of CCRPC's regional activities, are discussed in the following sections.

JERICO ACTIVITIES

In FY2018, the CCRPC provided assistance to Jericho on the following projects and initiatives:

- **Skunk Hollow/Rt 117 Intersection Scoping** – This project involves collaboration between the CCRPC, the Town, VTrans and other project stakeholders to identify preferred short and long-term alternatives to improve safety and enhance mobility at the Skunk Hollow/Rt 117 intersection in Jericho. The project began in December 2017 and is expected to be complete by December 31, 2018. Total consultant contract amount: \$56,000.
- **Riverside Future Street Network Study** – The CCRPC worked with the Town and consultant team to develop a plan for future street network enhancements in Jericho’s Riverside area. The study complemented the Town’s form-based zoning code to support new development and building frontages that create a walkable, mixed use, human-scaled community. The project team worked to refine street network design concepts, cross-sections, stormwater improvements and required utility adjustments. A traffic analysis was also completed to evaluate existing and future traffic conditions. The project was presented to the Selectboard in March to solicit feedback on proposed signalized and roundabout alternatives at the Dickinson Street/Rt 15 intersection. The draft final report was presented to the Planning Commission in June. Total consultant contract amount: \$50,000.
- **FEMA Pre-Disaster Mitigation** – CCRPC staff worked in early 2018 with municipal staff to prepare a 2017 Progress Report on the implementation of the actions recommended in the Jericho municipal All-Hazard Mitigation Plan. Typically, these were roadway and stormwater projects to mitigate the impacts of future severe rainstorms.
- **Emergency Management – LEOP**: CCRPC staff offered assistance in the Spring of 2018 with the annual local emergency operations plan (LEOP) to ensure that Jericho is prepared in the event of a disaster.
- **Geographic Information Systems** – CCRPC GIS staff provided Jericho with a Natural Resource Overlay map for Town Meeting, created a wall-sized map of the Town’s zoning data, developed a “driveways longer than 1000 feet” GIS data layer for Jericho Fire Department and updated data on the Jericho Map Viewer (<http://map.ccrpcvt.org/jerichomap/>). CCRPC GIS staff uploaded zoning and overlay data to the Vermont Open GeoData Portal.
- **Grant Assistance** – The CCRPC provided a letter of support for Jericho’s Municipal Planning Grant (MPG) application and worked with the Town to complete necessary documentation to get project agreements up and running for the DEC Water Quality Block Grant.
- **Municipal Roads General Permit (MRGP) Compliance and Water Quality Planning Assistance** – CCRPC staff continued to provide assistance to all member municipalities to address policy, data, and reporting issues to meet the MRGP requirements.
- **Safety** – CCRPC staff reviewed and analyzed crash data for Browns Trace Road, Skunk Hollow Road, Governor Peck Road and Ethan Allen Road for the VTrans Systemic Local Roads Safety (SLRS) program.

- **Technical Assistance** – CCRPC staff provided a variety of technical assistance to the Town, including:
 - guidance related to the development of a park and ride on Rt 15 at the corner of Old Pump Rd;
 - worked as the Liaison for the U.S. Census Bureau’s Local Update of Census Addresses Operation (LUCA) in Jericho.

Jericho Projects in the Transportation Improvement Program (TIP)

The TIP (<http://www.ccrpcvt.org/our-work/our-plans/transportation-improvement-program/>) is a prioritized, multi-year list of transportation projects in Chittenden County. To receive federal transportation funds, each transportation project, program or operation must be authorized through the TIP. Jericho projects included in the TIP are listed below. These projects are also identified in the FY2018 Vermont Agency of Transportation Capital Program for design or construction.

- **Browns River Middle School and Union ID School Crossing Improvements** – \$233,200 VTrans Bike/Ped award in 2014 for design and construction of pedestrian crossings with Rectangular Rapid Flash Beacons (RRFBs) at VT 15. Project to be construction in FY2018.
- **Browns Trace Multimodal Connection** – \$460,000 for Segment 2 of a path from Jericho Center to MMU High School funded with a 2015 Bike/Ped award of \$352,700. This project also received a 2012 Transportation Enhancement award and a 2015 Sidewalk award. Construction of this segment, from Pratt Road to Lee River Road, is scheduled for 2021.
- **Lee River Road Sidewalk** – \$350,000 project to design and construct 1,000 feet of sidewalk and other pedestrian improvements. This project will be partially funded through a 2017 Transportation Alternatives award of \$220,587. Construction scheduled for 2022.
- **VT 117 Paving** – \$6.5 million to pave from Essex-Jericho Town Line to US 2. Paving scheduled for 2018 - 2019.
- **VT15/Browns Trace Intersection Improvements** – \$2.6 million for intersection safety improvements. Construction will be completed in 2018.
- **VT15 Paving** - \$7 million to repave VT15 the Essex Junction/Essex town line to Underhill. Paving to begin in 2019.

REGIONAL ACTIVITIES

- **ECOS Plan and Annual Report** – The ECOS Plan is the combined Regional Plan, Metropolitan Transportation Plan, and Comprehensive Economic Development Strategy for Chittenden County and was readopted in 2018 with major updates to the energy, transportation and economic development sections:
 - 2018 ECOS Plan: <http://www.ecosproject.com/2018-ecos-plan/>
 - **Summary:** http://www.ecosproject.com/wp/wp-content/uploads/2017/09/2018-ECOS-Plan-Summary_20180807_FINAL.pdf
 - The 2017 Annual Report highlights regional accomplishments, trends, and high priority

actions: <http://www.ecosproject.com/annual-report/>

- The ECOS Scorecard is our online data platform that hosts the ECOS Partners' shared measurement system that monitors how Chittenden County is doing with regard to achieving our shared ECOS goals: <https://app.resultsscorecard.com/Scorecard/Embed/8502>
- **Legislative Forum** – The CCRPC hosted the 2017 Legislative Breakfast in December as a forum for a short and focused conversation with local legislators and municipal representatives on key issues and topics important to area municipalities for the 2018-2019 legislative session, including: housing, water quality, and municipal shared services.
(<http://www.ccrpcvt.org/about-us/commission/policies-positions/>)
- **Building Homes Together** – The CCRPC, Champlain Housing Trust and Housing Vermont continue to lead a coordinated campaign to strengthen Chittenden County communities and our economy by building 3,500 homes by 2021 for people of all incomes, including 700 affordable homes. CCRPC staff developed a series of housing indicators with the first-year data for a press conference that was held in September 2017. CCRPC also began to host a meeting of municipal Housing Committees to facilitate peer learning.
(<http://www.ecosproject.com/building-homes-together>)
- **Clean Water** – The CCRPC is committed to supporting water quality initiatives throughout our region to ensure that all residents have access to clean drinking water; to strengthen our region's recreation and tourism industry; and to become more resilient to flood events. To assist our member municipalities and the state in working together to achieve these goals, the CCRPC has facilitated the Clean Water Advisory Committee and the MS-4 Sub-Committee (<https://www.ccrpcvt.org/about-us/committees/clean-water-advisory-committee/>), provided guidance for the Vermont Clean Water Fund, assisted municipalities with Better Roads grants and stormwater master plans, managed water quality-focused advocacy and education programs such as the Rethink Runoff program(<http://rethinkrunoff.org>) and participated in the development of updates to the Winooski Tactical Basin Plan which assesses water quality concerns and recommends priority strategies to address these concerns.
- **Public Health** – The CCRPC supports and serves the Chittenden County Opioid Alliance (CCOA, <http://www.ecosproject.com/chittenden-county-opioid-alliance>) together with numerous other regional stakeholders. The CCOA is made up of many dedicated stakeholders who come from different sectors of the community and have partnered together: local non-profit agencies, state and local government; UVM Medical Center; Health Department; business leaders and community members in Chittenden County. CCRPC also served as the lead agency for the Regional Prevention Partnership (<http://www.healthvermont.gov/alcohol-drug-abuse/programs-services/prevention-programs>). Accomplishments included expansion of drug take back locations, promoting drug take-back days, fake ID enforcement, and community education about substance use prevention.
- **Regional Dispatch Implementation** – The CCRPC continues to work in partnership with Chittenden County municipalities to implement a plan for a consolidated regional dispatch environment for law enforcement, fire and rescue agencies. CCRPC staff facilitated discussions with municipal legislative bodies, participated in hearings with the Vermont Legislature's Government Operations Committees and provided support to the Joint Survey Committee.

Following strong support from voters in Burlington, Colchester, Milton, South Burlington, Williston and Winooski on Town Meeting Day 2018, the Chittenden County Public Safety Authority (CCPSA) was approved as a new union municipal district tasked with delivering regional emergency dispatch services to improve public safety operations.

<http://www.ccrpcvt.org/our-work/emergency-management/regional-dispatch/>

- **Emergency Management** – In collaboration with the Local Emergency Planning Committee (LEPC 1, <http://www.ccrpcvt.org/about-us/committees/local-emergency-planning-committee/>), the CCRPC hosted and participated in a variety of emergency management-related workshops and exercises to enhance resilience to disasters in our region. CCRPC also served as a key coordinator between municipalities and the state to collect damage assessment information after significant storm events, helped with emergency preparedness for hazardous materials incidents, worked with municipalities to complete Local Emergency Operations Plans, and facilitated Incident Command System training.
- **Regional Energy Planning** – The CCRPC adopted a Regional Energy Plan to support the State’s Comprehensive Energy Plan consistent with municipal and regional land use plans and policies. The CCRPC conducted significant outreach and incorporated feedback into the Plan from the following: municipal Energy Committee/Planning Commissions; municipal legislative bodies; members of the public; State agencies, including the Vermont Department of Public Service; and CCRPC’s Long Range Planning Committee, Energy Sub-committee, Executive Committee and the Board of Directors. The final plan was adopted on June 20, 2018 as part of the ECOS Plan (<http://www.ccrpcvt.org/our-work/our-plans/regional-energy-plan/>) and was granted an Affirmative Determination of Energy Compliance by the Department of Public Service on August 9, 2018. This means that the ECOS Plan’s policies will be given “substantial deference” during Public Utilities Commission proceedings. CCRPC has increased participation in PUC proceedings to ensure that local and regional policies are recognized.
- **Education & Training** – The CCRPC participated in and hosted the following trainings: Emergency Management Director/Public Information Officer Workshops, Act 250: Next 50 Years Conference, Economics of Housing Workshop, Regional Housing Convening. The CCRPC also continued to host the 12-month webinar series from the Association of Pedestrian and Bicycling Professionals for municipalities and regional partners.
- **Lake Champlain Byway** – Chittenden County includes eight of the Byway’s 22 communities: Milton, Colchester, Winooski, Essex Junction, Burlington, South Burlington, Shelburne and Charlotte. CCRPC staff maintained the Byway website, www.lakechamplainbyway.com and finalized the Byway’s Corridor Management Plan available at: <https://www.ccrpcvt.org/our-work/economic-development/lake-champlain-byway/>.
- **Transportation Demand Management** – The CCRPC and VTrans transitioned the popular annual **Way to Go! Challenge** (www.waytogovt.org) to a school-focused K-12 program to encourage sustainable transportation (non-single occupant vehicle travel) and demonstrate the environmental and financial benefits. With the recent expansion of CATMA’s (Chittenden Area Transportation Management Association) TDM services throughout the region, 2017 was the final year of promotion for **Go! Chittenden County**, a one-stop-shop for information and advice about our region’s transportation resources (www.gochittendencounty.org). The CCRPC’s

Travel Smarter campaign and trip planner provides a side-by-side comparison of the time, costs, distance, and calories associated with driving, biking, walking, and taking the bus. This transitioned into VTrans' TDM program (www.TravelSmarterVT.org).

- **Neighbor Rides** – Since Spring 2013, the CCRPC has been investing in Neighbor Rides to improve the integration of volunteer drivers into human services transportation to increase access to transportation for seniors and persons with disabilities by offering a lower-cost mode of transport. (<http://www.unitedwaynwvt.org/Neighbor-Rides>)
- **Regional Active Transportation Plan** – The CCRPC began steps to implement the Regional Pedestrian-Bicycle Plan recommendations for a comprehensive, connected, accessible and safe regional network for walking and biking. CCRPC staff led the development and launch of the regional **Greenride Bikeshare** system (www.greenridebikeshare.com), provided walk/bike recommendations on local and state paving plans, assisted municipalities with bike/ped grant applications, developed model bike parking ordinances for municipalities, promoted TDM strategies, and conducted walk/bike counts on paths, bike lanes and roadways. (<http://www.ccrpcvt.org/our-work/our-plans/regional-bikeped-plan/>)
- **Regional Transportation Model** – The regional transportation model was updated to better reflect current and future transportation demands due to forecasted demographic and employment changes in the county. The model is a tool used by the CCRPC to compare various land use and transportation scenarios and their effects on our transportation system at a regional level. Most recently, it was utilized in the 2018 update of our Metropolitan Transportation Plan (MTP) to assist in identifying and prioritizing transportation investments that will be most effective in meeting the MTP goals.
- **Chittenden County Transportation Survey** – The 2018 survey largely replicates the 2000, 2006 and 2012 versions to note any historical attitudinal shifts. The chief purpose of the survey is to objectively measure public opinion in Chittenden County regarding the performance of the region's transportation system and to identify strategies to address existing and future deficiencies. Relative to performance, questions measure public opinion on how well the transportation system serves the public's travel needs, affects livability, promotes economic development and opportunity, and affects the environment. The most recent survey was conducted this past April and May and the survey report is currently being drafted. Results will be released in October 2018.
- **Diversity & Equity** – The CCRPC continues to use the **2014 Public Participation Plan (PPP)** to guide our focus on diversity and equity in all projects. An update is planned in FY19 to ensure everyone understands our role and responsibilities for public participation. (<http://www.ccrpcvt.org/our-work/our-plans/public-participation-plan/>)
- **Regional Technical Assistance** – This includes but is not limited to, technical assistance for various transportation issues, GIS mapping, model municipal plans, bylaw and ordinance revisions, Act 250/Section 248 application reviews, grant administration, build-out analyses, orthoimagery acquisition, and improving the VT Online Bridge and Culvert Inventory Tool (<http://www.vtculverts.org/>).
- **Intelligent Transportation Systems (ITS)** – The CCRPC has been planning, designing and implementing advanced technologies on congested corridors in the county to improve safety,

facilitate traffic flows and reduce delays. (<https://www.ccrpcvt.org/our-work/our-plans/intelligent-transportation-systems/>)

- **Advanced Traffic Monitoring System (ATMS) using Bluetooth Technology** – The CCRPC, in close coordination with VTrans and FHWA, planned, designed and implemented an Advanced Traffic Monitoring System for five (5) congested corridors in Chittenden County to gather real-time travel data using Bluetooth technology. The system will ultimately integrate with the VTrans ATMS and Traveler Information System (TIS) for 511 through the State Transportation Operations Center (TOC). The CCRPC has already implemented a pilot corridor (Williston Road/US 2) using six (6) Bluetooth sensors for real-time travel data collection, testing and validation purposes. This fall, 24 Bluetooth sensors will be installed along the remaining four (4) corridors. The entire system will be tested and validated and the real-time travel data collected will assist VTrans and municipalities to improve the efficiency, safety, and reliability of the regional transportation system.
- **Exit 14 Area Traffic Signal Assessment Study** – The CCRPC has been coordinating with VTrans and the municipalities of South Burlington and Burlington to identify strategies to reduce congestion and improve traffic flows in the vicinity of the I-89 Exit 14 interchange. The CCRPC has completed a system assessment study for traffic signals along Williston Road/Main Street between Staples Plaza and Midas Drive, and Dorset Street between Williston Road and Kennedy Drive and developed a strategic plan for signal and communications infrastructure improvements and upgrades. Exit 14 Earmark funds will be used in the near future to implement the highest priority recommendations in South Burlington.

For further information about the CCRPC please visit <http://www.ccrpcvt.org/> or contact CCRPC Executive Director, Charlie Baker, cbaker@ccrpcvt.org, 802-846-4490 ext *23.
