Project Committee Meeting #3 – Meeting Notes

- Site Walk for Paths along gravel section resulted in 2 alternatives:
 1. 5' On Road Facility with physical barriers (planters, bollards, boulders, etc.)
 2. 5' Natural Path on Eastern Side of the Road with at least 5' buffer
- Discussion of Alternatives (Paved Section)
 - Alternative 1:
 - No need to stripe a centerline, only edge lines needed
 - No RRFB at Intervale Center Crosswalk needed
 - Alternative 2:
 - No RRFB at Intervale Center Crosswalk needed
 - Alternative 3:
 - Reconfigure cross-section for widened shoulders and wider shared use path
 - 10' Path – 3' Curbed Buffer – 1' Shoulder – Two 11' Lanes – 1' Shoulder
 - Include green paint at crossing with Riverside Ave to encourage downhill cyclists to take the road
 - No RRFB at Intervale Center Crosswalk needed
