p. 5

A. Introduction

The Chittenden County Transportation Improvement Program (TIP) for fiscal years 2019 through 2022 is a prioritized, fiscallyconstrained, and multi-year list of federally-funded, multimodal transportation projects and operations in the CCRPC region -Chittenden County. As a federally designated Metropolitan Planning Organization (MPO), CCRPC must prepare a TIP which must cover at least a 4-year program of projects and be updated no less frequently than every 4 years. In addition, projects in the TIP must be prioritized at the regional level and have clearly identified funding sources. All transportation projects, programs, and operations receiving federal funds in Chittenden County must be authorized through the CCRPC TIP process. The exceptions are federal airport funds for Burlington International Airport, which are not subject to the CCRPC's prioritization process, but are listed in the TIP for information and coordination purposes.

- The TIP authorizes the implementing agency (e.g., VTrans, GMT) to obligate federal funds for listed projects and operations over the next four federal fiscal years (October 1, 2018 through September 30, 2022).
- The first year of a duly-adopted and approved TIP constitutes an "agreed to" list of projects for project selection purposes, provided that anticipated federal funds available to the region are available during that year.
- The U.S. Department of Transportation (DOT) must find that the TIP is based on a continuing, comprehensive transportation planning process carried out cooperatively by the State, the CCRPC, and transit operators.

B. Financial Plan

Federal Funding

The majority of TIP projects are funded with 80 percent federal funds. However, in some cases federal amounts may vary such as with interstate projects, which can be funded with 90 percent federal funds, and some transit projects, which may be funded with 50 percent federal funds. There is a column on the right side of the TIP document that indicates the percentage shares of federal, state and local funding.

State Funding

The State of Vermont maintains a State Transportation Fund to pay for transportation programs and projects. State matching funds for TIP projects would most likely come from this fund. The fund is primarily supported by revenue collected from the motor fuel tax on gasoline and diesel and purchase and registration fees for motor vehicles.

State transportation resources are allocated through the state legislature's annual capital and budgetary process and are identified in the Transportation Capital Program. State transportation funding allocated to projects and programs in Chittenden County is determined through this process, in consultation with the CCRPC.

Local Funding

Sources of local matching funds come primarily from the property tax and are approved by each municipality in their annual budgeting process.

Operation and Maintenance

Operations and maintenance of the Federal Aid Highway System in Chittenden County is conducted by VTrans and funding

amounts are identified in the State Transportation Improvement Program (STIP).

Green Mountain Transit (GMT) has an estimated Operations and Maintenance budget for transit services in FY19 of \$13,905,833. Revenue sources for transit operations and maintenance are as follows:

Total Revenue	\$13,905,833
Misc revenue	\$35,000
Federal grants	\$5,635,285
State funding	\$2,451,708
Local funding	\$3,235,396
Purchase of service	\$43,844
Passenger revenue	\$2,504,600

C. Performance Management

TPM Overview

A key feature of the most recent Federal Transportation Acts, MAP-21 and FAST ACT, is the emphasis on system performance. At the national level, the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) have established a Transportation Performance Management (TPM) program, a strategic initiative designed to achieve national transportation performance goals. The intent is to measure progress towards national goals through a reliable data-driven process.

MPOs will be required to describe, for future TIPs, how the investment decisions behind TIP projects and strategies will work toward achieving the identified national performance goals. This will link investment priorities included in the TIP with State and

regionally established performance targets designed to meet the goals.

TPM goals, measures and targets will be established in the following areas: safety, infrastructure condition for pavement and bridges, congestion, system reliability on the national highway system, freight movements on the interstate, and air emissions. Once the performance measures are established at the federal level, state DOTs and MPOs must set quantifiable targets to gauge progress towards state and national goals. The schedule to establish targets varies by measure with MPO targets due 180 days from the establishment of state targets. The objective is for states and MPOs to invest resources in projects that collectively make progress towards the achievement of national goals.

Safety Performance Measure

Safety targets were the first to be established and reported to FHWA by all DOTs and several MPOs. VTrans, CCRPC and other stakeholders collaborated through the winter and spring of 2017 to develop statewide targets for the five performance measures that were established under the safety category in support of the state's Highway Safety Improvement Program (HSIP). VTrans established and reported their safety targets in the summer of 2017 and the CCRPC voted to accept the state targets and support them through programming.

The statewide 2018 safety targets are listed below:

- ➤ 5-Year Average Fatalities 57.0
- 5-Year Fatality Rate 0.830 per 100 million Vehicle Miles Traveled
- 5-Year Average Serious Injuries 280.0 per 100 million Vehicle Miles Traveled
- ➤ 5-Year Average Serious Injury Rate 4.0

5-Year Average Non-Motorized Fatalities and Non-Motorized Serious Injuries - 39.4

Other Performance Measures

The established performance measures under the other criteria are listed below. Targets have not yet been established for these measures.

- Infrastructure Condition

Pavement

- 1. Percentage of pavement on the Interstate in good condition
- 2. Percentage of pavement on the Interstate in poor condition
- 3. Percentage of pavement on the non-Interstate National Highway System (NHS) in good condition
- 4. Percentage of pavement on the non-Interstate National Highway System (NHS) in poor condition

Bridges

- 1. Percentage of NHS bridges in good condition
- 2. Percentage of NHS bridges in poor condition
- Congestion -- Not required because Vermont does not exceed national air quality standards
- National Highway System Reliability
 - 1. Interstate travel time reliability
 - 2. Non-Interstate NHS travel time reliability
 - 3. Freight reliability measure (truck travel time)
- Air Emissions percent change in tailpipe carbon dioxide (CO2) emissions on the National Highway System (NOTE: FHWA now proposes repeal of this measure)

CHITTENDEN COUNTY REGIONAL PLANNING COMMISSION A Resolution to Adopt the FY2019-2022 TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Chittenden County Regional Planning Commission, as the designated Metropolitan Planning Organization for Chittenden County, Vermont, is responsible for the operation and maintenance of a continuing transportation planning process designed to prepare and adopt transportation plans and programs; and

WHEREAS, a fiscally constrained Transportation Improvement Program containing transportation improvements expected to be carried out in the period October 1, 2018 through September 30, 2022 has been prepared through the planning process; and

WHEREAS, the Chittenden County Regional Planning Commission's Transportation Advisory Committee found the projects contained in the proposed TIP to be in conformance with the duly adopted Metropolitan Transportation Plan and has recommended the fiscally constrained 2019-2022 Transportation Improvement Program to the Chittenden County Regional Planning Commission for adoption; and

WHEREAS, the Chittenden County Regional Planning Commission sent copies of the proposed TIP to the eighteen member municipalities for the review and comment period on June 21, 2018; and

WHEREAS, the Chittenden County Metropolitan Planning Organization held a public hearing in the CCRPC offices in Winooski on Wednesday, July 18, 2018 to review the proposed Transportation Improvement Program after publishing a legal notice in the Burlington Free Press;

NOW, THEREFORE, BE IT RESOLVED that the Chittenden County Regional Planning Commission, as the Metropolitan Planning Organization, hereby adopts the fiscally constrained 2019-2022 Transportation Improvement Program attached hereto and made a part hereof.

RESOLVED, PASSED AND ADOPTED THIS 18th DAY OF JULY 2018.

CHITTENDEN COUNTY REGIONAL PLANNING COMMISSION

Christopher D. Roy, CCRPC CHAIR

GLOSSARY

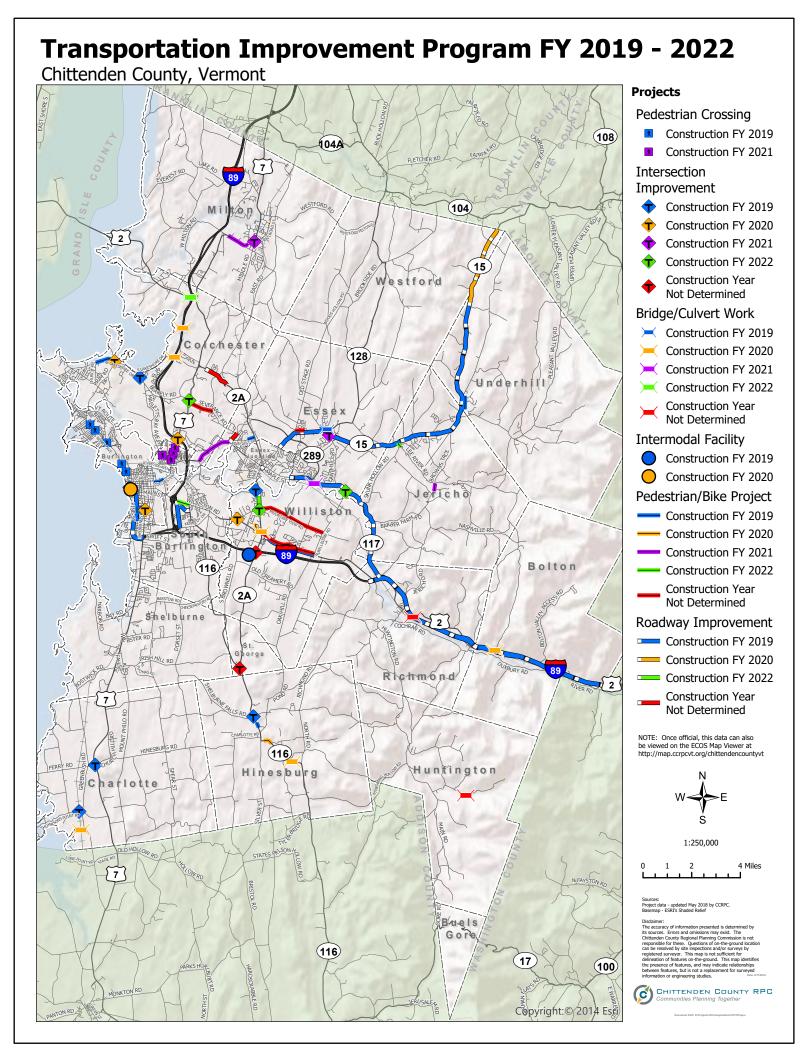

ADA	Americans with Disabilities Act of 1990. Federal legislation prohibiting discrimination on the basis of disability.	FAA	Federal Aviation Administration. The USDOT agency responsible for aviation related programs.
Adaptive Signal Control	Adaptive signal control technology adjusts the timing of red, yellow and green lights to accommodate changing traffic patterns and ease traffic congestion.	FAST Act	The Fixing America's Surface Transportation (FAST) Act is five- year legislation to improve the Nation's surface transportation infrastructure, including our roads, bridges, transit systems, and rail transportation network. The bill reforms and
AIP	Airport Improvement Program. FAA program that assists the development of public-use airports by providing funding for airport planning and development projects.		strengthens transportation programs, refocuses on national priorities, provides long-term certainty and more flexibility for states and local governments, streamlines project approval processes, and maintains a strong commitment to safety.
BTV	Burlington International Airport		
CCRPC	Chittenden County Regional Planning Commission. The county's comprehensive planning organization. Established under state	FHWA	Federal Highway Administration. The USDOT agency responsible for roadway related programs.
	law. CCRPC also acts as the Metropolitan Planning Organization for Chittenden County. The MPO is established under federal law and responsible for transportation planning and programming	FRA	Federal Railroad Administration. The USDOT agency responsible for railroad programs.
	within its jurisdiction.	FTA	Federal Transit Administration. The USDOT agency responsible for public transportation programs.
CIRC Alternative Project	A program of projects to implement the purpose and need that the CIRC highway was originally intended to address. In 2011 the Governor announcement that the Chittenden County Circumferential Highway – as originally conceived - would not be built.	FTA Section 5307	FTA grant program for capital and operating assistance in urban areas over 50,000 in population.
CMAQ	Congestion Mitigation and Air Quality Improvement Program. Federal funding program designed to address congestion and air quality issues through capital and operating projects.	FTA Section 5309	FTA grant program for capital programs such as buses and bus facilities.
CCTA	Chittenden County Transportation Authority. The former name of region's public transportation provider. In 2016 CCTA merged with Green Mountain Transit Authority and changed their name to	FTA Section 5310	FTA grant program to States for assisting private non-profit groups in meeting the transportation needs of the elderly and persons with disabilities.
	Green Mountain Transit (GMT)	FTA Section	FTA funding program that provides capital funding to replace, rehabilitate and purchase buses and related equipment and to
CON	Construction. Project development phase in which the project is implemented.	5339	construct bus related facilities.
DDI	Diverging diamond interchange. DDI is a new type of diamond interchange that increases capacity and reduces congestion.	GMT	Green Mountain Transit. The region's public transportation provider.

GLOSSARY

HSIP ISTEA	Highway Safety Improvement Program (HSIP). A data-driven, strategic approach to improving highway safety on all public roads that focuses on performance. Intermodal Surface Transportation Efficiency Act of 1991.	NHS	National Highway System. The NHS includes the Interstate Highway System as well as other roads important to the nation's economy, defense, and mobility. The NHS was developed by the Department of Transportation in cooperation with the states, local officials, and metropolitan planning organizations.
ISTEA	Federal legislation emphasizing innovation, intermodalism, and flexibility. The Act authorized \$151 billion over 6 years.	Para- transit	A demand-response transportation system catering to special needs populations such as the elderly and disabled.
ITS	Intelligent Transportation Systems. The application of technology to improve transportation system efficiency.	PE	Preliminary Engineering. Project development phase in which project design is determined.
LTAP	Local Technical Assistance Program. A national non-profit effort financed jointly by the Federal Highway Administration and individual State Departments of Transportation. Its purpose is to provide road and bridge know-how to municipal people involved	Round- about	Non-signalized circular intersection with specific design and traffic control features to ensure low travel speeds and efficient traffic movement.
	with highways. There are LTAP Centers in 50 states and Puerto Rico and seven Native American locations. Vermont's program is called Vermont Local Roads.	ROW	Right-of-Way. A phase in the project development process that determines if land rights are needed for construction of a transportation project and negotiates the appropriate
MAB	Municipal Assistance Bureau. VTrans program established to assist local governments with project implementation.	SAFETEA-	compensation. Safe, Accountable, Flexible, Efficient Transportation Equity Act:
MAP-21	The Moving Ahead for Progress in the 21st Century Act (MAP-21) was a funding and authorization bill to govern United States federal surface transportation spending. It was passed by Congress on June 29, 2012.	LU	A Legacy for Users (SAFTEA-LU). This act was passed in August 2005 as the successor to the Transportation Efficiency Act for the 21st Century (TEA-21). The Act added new safety programs, with an emphasis on transportation security.
MPO	Metropolitan Planning Organization. Federally established organization responsible for a cooperative, continuous, and comprehensive framework to make transportation investment	Safety Program	Under Sections 154 and 164 of the US Code penalty funds for Open Container and Repeat Offender Laws may be used for Highways Safety Improvement Program (HSIP) eligible activities.
	decisions within their designated area. CCRPC is the designated MPO for Chittenden County.	Scoping	A phase in the project development process that moves a recognized problem from an idea through the development of alternatives and environmental screening.
NHPP	National Highway Preservation Program. The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in	Shared Use Path	A path separated from vehicle traffic by barrier or open space usually on its own right-of-way.
	highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan for the NHS.	SSTA	Special Services Transportation Agency. Chittenden County based non-profit paratransit provider.

GLOSSARY

STIP	Statewide Transportation Improvement Program. The State's four year list of fiscally constrained transportation projects planned for implementation statewide.	TIP	Transportation Improvement Program. The four year list of fiscally constrained transportation projects planned for implementation in the region.
STP	Surface Transportation Program. Federal program providing flexible funding for projects on any Federal-aid highway, including the NHS, bridge projects on any public road, transit	TOD	Transit Oriented Design. High density and mixed use land development around transit system stops.
	capital projects, and bus facilities.	Traffic Calming	A combination of measures to reduce the negative effects of vehicle use or to alter driver behaviors.
TAP	The Transportation Alternatives Program (TAP) provides funding for transportation alternatives, including pedestrian and bicycle facilities, improving non-driver access to public transportation,		
	safe routes to school projects, and recreational trails.	TSM	Transportation Systems Management. Relatively low-cost improvements to improve transportation efficiency such as ITS
TCSP	Transportation, Community and System Preservation Program. Federal program that provides funding for planning grants,		applications or roundabouts.
	implementation grants, and research to investigate and address the relationships between transportation, community and system	USDOT	United States Department of Transportation
	preservation.	VTrans (or VAOT)	Vermont Agency of Transportation
TDM	Transportation Demand Management. The general term for strategies that result in more efficient use of transportation resources.		
TEA 21	Transportation Equity Act for the 21st Century (TEA-21) replaced ISTEA to guide federal expenditures for surface transportation in 1999. The Act authorized new flexible programs and increased authorized funding to \$198 billion over 6 years.
