• **Design:** Final Design plans are being prepared.

• **Right-of-Way:** In June 2018, the Burlington City Council issued a Necessity Order for this project.

• **Permits:** All necessary permits are in hand or applications are under review.

• **TIP Amendment:** A request for a TIP Amendment will be on the TAC Agenda in March to shift funds to align with current schedule.

What’s going on?

St. Paul Street is getting an upgrade

- New bumpouts and crosswalks
  - Safer, shorter, and more visible street crossing
- Wider sidewalks
  - More comfortable for strolling and accommodating outdoor seating and amenities
- More trees
  - More shade and greenery
- Rain gardens
  - Protects water quality, reduces stormwater pollution
- Permeable paving
  - Captures and filters stormwater, limits runoff
- Bike racks
  - Convenient on-street storage
- Street lights
  - Brighter, safer nighttime with energy-efficient LEDs
- New benches
  - Places to sit and relax
- Granite curbs
  - Elegant, durable street edge
- Burying overhead utilities
  - Hiding unsightly power lines
