

Chittenden County Economics of Housing Workshop

January 29, 2018

Housing Resources

Video of this Workshop: <https://www.cctv.org/watch-tv/programs/economics-housing-panel-discussion>

Turner Center for Housing Innovation's Development Calculator allows users to estimate the probability that a given development project will be built, given a particular set of policies and economic conditions. For example, if a proposed policy increases the density requirements in a jurisdiction, holding all other factors constant, how will this change affect the likelihood that a planned multifamily project will be developed? <http://turnercenter2.berkeley.edu/proforma/>
