

SCOPE

HTML5 Interactive/Animated Graphics

Convert Stormville into smaller HTML5 interactive/animated graphics across the site.

Pluck will use the animated behaviors of Stormville, reprogram and break them into smaller animated pieces, to embed on each of the action-based/things-you-can-do subpages in Get Educated (Install a Rain Barrel, Plant a Rain garden, etc.)

Eight pages in all. Each page would include an interactive behavior followed by an animated sequence, in HTML5.

Cost:

\$1,20-\$1,500
