Chittenden County RPC Seeks Planning Project Ideas for Annual Work Program

(*Winooski, VT*) The Chittenden County Regional Planning Commission (CCRPC), the region's transportation and land use planning and policy organization, is seeking public input on planning ideas and projects for its annual work program starting July 1, 2021. The public is invited to help develop new transportation and land use planning projects that improve safety and enhance mobility for all users of the transportation system, and support our vibrant downtowns, villages and growth centers in Chittenden County.

The CCRPC encourages you to coordinate your ideas with your municipality since most projects require local funding and support. Note that the CCRPC's planning funds cannot be used for design or construction of projects, but planning is the first step that moves projects closer to reality.

HOW TO SHARE YOUR IDEAS

A public forum is scheduled as part of the CCRPC's regular Board meeting on **Wednesday, January 20 at 6:00pm** via Zoom. More details and a link to join are available at: <https://www.ccrpcvt.org/about-us/commission/annual-work-plan-budget-finances/>.

Comments will also be accepted until **Friday, January 22** via email (mdistel@ccrpcvt.org). Our current work plan is available online at <https://www.ccrpcvt.org/about-us/commission/annual-work-plan-budget-finances/>. Again, we encourage you to work with your municipal planning/public works staff or elected body on project ideas.

MORE INFORMATION ABOUT CCRPC

The CCRPC (<https://www.ccrpcvt.org/>) is one of 11 regional planning commissions in Vermont, and also serves as the State's only Metropolitan Planning Organization. The CCRPC acts as the principal forum for planning, policy and community development in the region by providing planning and technical assistance that meets the needs of its member municipalities and the public, while remaining consistent with federal and state requirements. The CCRPC's work results in the development and implementation of plans that support sustainable development and improve the region's quality of life and environment.
