The Historic Preservation Review Process in Vermont

In order to insure that historic preservation is carefully considered in publicly-funded or permitted undertakings, there are laws at each level of government that require projects to be reviewed for their potential impact/effect on historic properties.

These laws include:

- **10 V.S.A. Chapter 151 - Act 250/Criterion 8** - For projects requiring a new Act 250 permit or an amendment to an existing permit.
- **Section 248** - Public Service Board - For projects requiring a Certificate of Public Good.
- **22 V.S.A. Chapter 14** -The Vermont Historic Preservation Act - For projects with state involvement in the form of funding, licenses or permits.
- **Section 106 of the National Historic Preservation Act of 1966** - For projects with federal involvement in the form of funding, licenses or permits.

Regulations on line at: <http://accd.vermont.gov/historic-preservation/resources-rules>

Project review consists of identifying a project's potential impacts to historic buildings and structures, historic districts, historic landscapes and settings, and to known or potential archaeological resources. Project review is a consultative process between the applicant and the Division. Applicants are encouraged to contact our office as early as possible in the project planning process. We can assist in identifying historic resources in the project area and provide guidance on how to evaluate and avoid potential adverse effects to those resources as an outcome of the project. While protecting historic resources, this can save you time and money in the development of your project.
