Agenda

1. Call to Order, Attendance (1 min)

2. Consent agenda (0 min)

No consent agenda this month.

3. Minutes of October 4, 2022* (Action Item – 2 min)

See attached minutes.

4. Public Comment Period

Members of the public are invited to raise issues of interest or concern to the TAC on items not on the agenda.

5. Statewide Electric Vehicle Infrastructure Plan (Discussion Item – 30 min)

Patrick Murphy, VTrans, will provide perspective on the National Electric Vehicle Infrastructure guidelines, the funding available for fast charging needs, and how the state has prioritized planned investments within this context.

6. Winooski River Bridge Project Update and Transportation Improvement Program (TIP) Amendment* (Action Item – 20 min)

Carolyn Cota, VTrans, will share information about the Main Street Winooski River Bridge project, which was awarded a \$24.8 million federal RAISE grant. TAC action is requested to amend the TIP for this project.

7. 2023 Metropolitan Transportation Plan (MTP) Update (Information Item – 20 min)

CCRPC staff will share an update on the 2023 MTP progress and revised schedule.

8. FY2024 UPWP Solicitation (Information Item – 5 min)

CCRPC staff will announce the upcoming FY2024 Unified Planning Work Program (UPWP). This is our annual solicitation of projects to be considered for next year's CCRPC work program. Information and materials will be released later in November.

9. Status of Projects and Subcommittee Reports (Information Item – 1 min)

See bulleted list at the end of the agenda for current CCRPC projects. TAC members are encouraged to ask staff for

In accordance with provisions of the Americans with Disabilities Act (ADA) of 1990, as amended, the CCRPC will ensure public meetings are accessible to all people. Requests for free interpretive or translation services, assistive devices, or other requested reasonable accommodations, should be made to Emma Vaughn, CCRPC Title VI Coordinator, at 802-846-4490 ext. 121 or <u>evaughn@ccrpcvt.org</u>, at least 3 business days prior to the meeting for which services are requested.

more information on the status of any of these ongoing or recently completed projects.

10. CCRPC Board Meeting Report (Information Item – 1 min)

In October the Board approved the municipal dues increase, approved the Regional Park and Ride Plan, approved the Bolton Enhanced Energy Plan, was introduced to Mckenzie Spear, our new Business Office Associate, heard an update on Anne Nelson Stoner, our new Equity and Engagement Manager, and Darren Schibler, our new Planner, and heard Executive Director updates on formation of the Equity Advisory Committee and other items.

11. Chair/Members' Items (Information Item – 5 min)

- VTrans 2023 Transportation Alternatives grant program: projects must relate directly to surface transportation; note that 50% of grant program funds are reserved for environmental mitigation projects relating to stormwater and highways, including eligible salt and sand shed projects. Virtual informational workshop will be held on November 16 and applications are due by e-mail (preferred) to Scott.robertson@vermont.gov by December 14, 2022. More information: http://vtrans.vermont.gov/highway/local-projects/transport-alt
- Animating Infrastructure Grant Program: The Vermont Arts Council is offering a funding opportunity for communities to integrate works of public art into upcoming infrastructure projects. Grants of up to \$15,000 are available. <u>Workshop</u> scheduled for November 15, with **project pitches due December 12**. More information at <u>https://www.vermontartscouncil.org/grants/organizations/animating-infrastructure</u>.
- <u>EV Expo at the REV Conference</u> October 27 & 28 at the DoubleTree Hilton in South Burlington. Check out new vehicles. Potential opportunity to attend just the EV Expo without having to register for the whole conference. Contact Peggy ONeill-Vivanco <u>Peggy.ONeill-Vivanco@uvm.edu</u>.
- Diesel Emissions Reduction Act (DERA) funding may be coming this fall: <u>https://dec.vermont.gov/air-quality/mobile-sources/diesel-emissions/vt-diesel-grant</u>. Contact Leigh Martin at (802) 261-0713 or <u>leigh.martin@vermont.gov</u>.
- **NOTE:** in December we will have Chris Bruntlett from the <u>Dutch Cycling Embassy</u> speak about the Dutch experience with bicycle infrastructure design, maintenance, policy, education and more. Here is an article about <u>Bicycle's Conquest of Amsterdam</u> to set the stage.
- * = Attachment

Next Meeting: Tuesday, December 6, 2022

Potential Future Agenda Items:

- Title VI and racial equity update
- Traffic calming policies
- Bike lane design guidance
- Bike facility winter maintenance
- Burlington School District travel plans for 9 schools

In accordance with provisions of the Americans with Disabilities Act (ADA) of 1990, as amended, the CCRPC will ensure public meetings are accessible to all people. Requests for free interpretive or translation services, assistive devices, or other requested reasonable accommodations, should be made to Emma Vaughn, CCRPC Title VI Coordinator, at 802-846-4490 ext. 121 or <u>evaughn@ccrpcvt.org</u>, at least 3 business days prior to the meeting for which services are requested.

Project List:

- Title VI program participation and Public Participation Plan implementation
- Participation in the Vermont Highway Safety Alliance
- Participation in the State's Rail Council
- Advanced Traffic Monitoring System through FHWA AID grant
- Regional Transportation Energy Planning
- Transportation Hazard Mitigation Planning
- ECOS MTP Plan (2023) Update
- Coordination with GMT on ADA and Elders & Persons with Disabilities advisory committees
- Active Transportation Plan update
- Regional Park & Ride Plan Completed
- Chittenden County I-89 2050 Study
- Greenride Bikeshare On hold
- Property Transportation Plan: Reduce transportation emissions in commercial and affordable multi-unit sectors with Burlington Electric Department and Burlington 2030 District
- Richmond Village Sidewalks Scoping Study Completed
- VT15 Corridor Pedestrian and Road System Study (Essex)
- City of Burlington School District School Travel Plan and Traffic Control Plan Completed
- Shelburne Bicycling and Pedestrian Connectivity Study Completed
- Winooski Traffic Calming Policy Completed
- Winooski Parking Inventory, Analysis, and Management Plan Completed
- Kimball Ave Path Feasibility Study for Crossing of Potash Brook (South Burlington) Completed
- Form-Based Code for Williston's Growth Center Completed
- Watershed Resiliency Mapping/Transportation Resiliency Planning Tool (TRPT)
- Westford Town Green Stormwater Treatment Assessment On-hold
- Right-of-Way Condition Inventory for Stormwater Retrofit Feasibility Phase 3 (Burlington)
- LPM services for Shelburne Irish Hill Road Sidewalk and Pedestrian Bridge project
- Municipal Road General Permit (MRGP) Work
- Grants-In-Aid Coordination with Municipalities
- Multi-Modal Transportation Hub for Taft Corners Feasibility Study (Williston)
- Bolton Municipal Paving Evaluation
- Route 116 Crosswalk Scoping (Hinesburg)
- Richmond Gateway Feasibility Study
- Bike/Pedestrian Bridge over I-89 Study (South Burlington)
- Evaluation of Bicycle / Pedestrian Lighting Needs Along Kennedy Drive (South Burlington)
- Multi-site Crosswalk Assessment: Four Intersections for Connectivity (South Burlington)
- Winooski Bicycle & Pedestrian Plan
- Colchester Middle Road Culvert Replacement Scoping
- Hollow Road and Levensworth Road Town Bridge Feasibility Study (Hinesburg)
- Jericho Corners to Riverside Path Scoping
- Right-of-Way Condition Inventory for Stormwater Retrofit Feasibility Phase 3 (Burlington)
- Essex Stormwater CCTV Inspection Phase 3
- Essex Phosphorus Control Plan Treatment Practices
- Milton Allen Brook Stormwater/Watershed Assessment
- Shelburne Stormwater Plan Update and Conceptual Designs
- Stormwater Asset Data Update (Williston)

In accordance with provisions of the Americans with Disabilities Act (ADA) of 1990, as amended, the CCRPC will ensure public meetings are accessible to all people. Requests for free interpretive or translation services, assistive devices, or other requested reasonable accommodations, should be made to Emma Vaughn, CCRPC Title VI Coordinator, at 802-846-4490 ext. 121 or <u>evaughn@ccrpcvt.org</u>, at least 3 business days prior to the meeting for which services are requested.

1 2 3 4	CHITTENDEN COUNTY REGIONAL PLANNING COMMISSION TRANSPORTATION ADVISORY COMMITTEE MINUTES			
5	DATE:	Tuesday, October 4, 2022		
6	TIME:	9:00 a.m.		
7	PLACE:	Virtual Meeting via Zoom		
8		C		
9	Members Present		Adele Gravitz, Shelburne	
10	Bryan Osborne, Colchester		Kurt Johnson, Underhill	
11	Amy Bell, VTrans		Joss Besse, Bolton	
12	Matthew Arancio, VTrans			
13	Chris Jolly, FHWA		Staff	
14	Bob Henneberger, Seniors		Charlie Baker, Executive Director	
15	Norm Baldwin, Burlington		Eleni Churchill, Transportation Program Manager	
16	Dierdre Holmes, Charlotte		Bryan Davis, Senior Transportation Planner	
17	Barbara Elliott, Huntington		Christine Forde, Senior Transportation Planner	
18	Aaron Martin, Essex		Marshall Distel, Senior Transportation Planner	
19	Ravi Venkataraman, Richmond		Chris Dubin, Senior Transportation Planner	
20	Sandy Thibault, CATMA		Jason Charest, Senior Transportation Planning Engineer	
21	Tom Dipietro, South Burlington			
22	Bruce l	Hoar, Williston	Guest	
23	Jonatho	on Weber, Local Motion	Greg Goyette, Stantec	
24	Mary A	Anne Michaels, Rail	Mike Rutkowski, Stantec	
25	Chris I	Damiani, GMT		
26				
27				
28	1. Bryan Osborne called the meeting to order at 9:02 AM.			
29	J	<i>.</i>		
~ ~				

30 2. <u>Consent Agenda</u>

BARBARA ELLIOT MADE A MOTION TO APPROVE THE CONSENT AGENDA, SECONDED BY
 RAVI VENKATARAMAN. THE MOTION PASSED UNANIMOUSLY.

33

34 3. <u>Approval of September 6, 2022 Minutes</u>

BOB HENNEBERGER MADE A MOTION TO APPROVE THE MINUTES OF SEPTEMBER 6, 2022,
SECONDED BY BARBARA ELLIOT. THE MOTION PASSED UNANIMOUSLY.
37

38 4. Public Comments

39 No comments from the public.

40 41

5. Winooski Traffic Calming Manual

42 Marshall Distel, CCRPC, introduced the project. The City of Winooski was interested in a manual that 43 would introduce policies and procedures for traffic calming, and staff wanted to share the results in case 44 other municipalities were interested. Greg Goyette, Stantec, introduced Mike Rutkowski who presented 45 the project. Mike walked through the manual and process to formalize the traffic calming process. 46 Education up front is important, define what traffic calming is and is not, explain why it's important, and 47 showed examples of potential pilot projects. The manual introduces an evaluation process, which didn't 48 exist previously. Street typologies are important because they serve different purposes and have different 49 needs. The street typologies were used to create a table that can be used as a quick reference guide for

different treatments for different circumstances. The pilot project section shows potential treatments for
 specific streets in Winooski.

52

53 Bryan Osborne asked about the speed warrants as a way to determine eligibility for traffic calming on a

roadway. Mike said that if the 85th percentile speed is a certain amount over the speed limit, then it

2

1 warrants more investigation. This is similar for crash rates as a warrant. Bryan asked whether the amount 2 is 5 or 10 mph over the posted speed limit? Mike said that specific speeds are related to the type of street, 3 so it would be 5 mph over for Neighborhood Streets and 10 mph over for Collector Streets (see manual pg 4 14). Bryan asked about the public process and is there a limit on the number of projects a city can address 5 at one time. Mike said Burlington was encountering a lot of traffic calming requests, so the manual helps 6 provide guidance to determine how to prioritize projects rather than rely on first come, first serve process. 7 Bryan then asked about the monitoring process, and if the outcome didn't achieve the desired outcome, 8 are the traffic calming types increasingly aggressive. Mike notes that according to FHWA, a roundabout 9 is the most effective traffic calming device. Consideration also must be given to cost. Adele asked about traffic tables versus speed bumps and the differences in impacts. Mike is not a fan of

10

11

12 speed bumps which can introduce aggressive behavior. Some places are going through a process to 13 remove speed bumps. Speed humps function similarly to raised crosswalks and raised intersections.

14 Education and signage can also help. Adele comments that she's had debates about the two designs and

15 their effectiveness. Mike notes that distracted driving is the number one cause of crashes so keeping

- 16 driving attention on the roadway is key. Greg Goyette added that the speed bump requires a significant
- 17 speed reduction, then speeding up until the next one, whereas speed humps better manage a slower
- 18 consistent speed. 19

20 Sandy observed a lack of transit pull offs on the Gateway street typology. Mike asked transit people in the 21 meeting if their drivers prefer pull outs or not. Chris Damiani, GMT, responded they typically don't use 22 pull outs, except for Shelburne Road, because it can be hard for drivers to see traffic behind to make a 23 safe return to the travel lane. If a pull out is located just beyond an intersection, then when the light turns 24 red the driver has a chance to return to the lane.

25

26 Bruce Hoar noted that specific traffic volumes don't seem to be included as a warrant. Greg notes that 27 heavy traffic volumes are included. Mike notes this is based on the percent of truck traffic on a type of 28 street; what you would expect on an interstate is higher than what you would expect on a local street. 29 Greg notes that this wasn't as high a metric as others, and that this manual is specific to Winooski so 30 while some treatments would be appropriate in other towns, others might not be (e.g., in more rural 31 areas). 32

33 Norm comment in chat: The neighborhood streets generally do not have turning radius and street widths 34 that do accommodate the larger class commercial vehicles. We [Burlington] are actively using Autoturn 35 to design intersections. Different Traffic calming devices have traffic volumes for guidance.

36 37 Adele says that in some communities, the main street is also a highway, so adding street trees may not be 38 allowed. If a town doesn't want to take over the road, is there a workaround to implement some of the 39 treatments? Greg says there are limitations given the maintenance required on state highways and

40 working with each district can have different results. Mike notes the myriad issues with Shelburne Road

41 such as inconsistent cross-section, level of development throughout corridor, and it's flat and straight

42 which leads to certain driver behaviors, so work with VTrans to come up with different options.

43 Streetscape elements like landscaping and lighting, as well as the presence of people, can help slow traffic 44 speeds.

45

46 Jonathon Weber in chat: In the short term, centerline crosswalk signs are one very low-cost option that 47 VTrans will sometimes allow. Adding that element in the middle of the road seems to slow drivers 48 somewhat and create more of a gateway treatment at crosswalks.

49

50 Marshall notes that other cities and towns can request a similar project through the next UPWP process.

51 The Winooski Traffic Calming Manual is available at: https://studiesandreports.ccrpcvt.org/wp-52 content/uploads/2022/10/Winooski_Traffic-Calming-Manual-Final.pdf.

53 54

1 6. Regional Park and Ride Plan

2 Marshall Distel, CCRPC, reminded the TAC of the Park and Ride presentation at their September

3 meeting and highlighted some key differences from the 2011 Park and Ride Plan, which included a

4 prioritized list of about 30 facilities. The new plan narrows the list down to 10 facilities, including one in

- 5 Essex within the vicinity of the VT 117/289 interchange that was added following the September CCRPC
- 6 Board meeting. Marshall reviewed the memo in the agenda packet which includes proposed facilities in
- 7 the final Regional Park and Ride Plan for TAC consideration and recommendation to the Board. The Plan 8 is available at: https://studiesandreports.ccrpcvt.org/wp-
- content/uploads/2022/09/Park__Ride_Plan Update 2022 final.pdf 9
- 10

11 BRUCE HOAR MADE A MOTION THAT THE TAC APPROVE THE CHITTENDEN COUNTY

- 12 PARK & RIDE PLAN AND SEND TO THE CCRPC BOARD FOR ADOPTION. THE MOTION WAS SECONDED BY BARBARA ELLIOTT. THE MOTION PASSED UNANIMOUSLY.
- 13 14

15 7. Municipal Roads General Permit Update

- 16 Chris Dubin, CCRPC, presented information about the new Municipal Roads General Permit (MRGP)
- 17 program. The MRGP is being re-issued in January 2023 so there are requirements for cities and towns.
- 18 Chris sent information about specific changes to his contacts in each city/town. A key change is an update
- 19 in the implementation requirement, going from 15% of non-compliant roads needing to be improved over
- 20 multiple years, to 7.5% annually needing to be compliant. The new scoring methodology is a bit more
- 21 complicated, including a slope multiplier. Chris shared that with the change in implementation
- 22 requirement, it doesn't result in more segments needing upgrading in Chittenden County municipalities.
- 23 A second round of road erosion inventories will start in the summer of 2023, with a 2-3 year schedule to
- 24 complete town-wide inventories. 25
- 26 Chris asked the TAC if members want to provide individual comments, or prefer to comment as a group?
- 27 Chris doesn't not have his own comments to submit. Bruce said he will defer to his stormwater
- 28 coordinator. Chris will be presenting this information to the Clean Water Advisory Committee (CWAC)
- 29 next week so they will have this information as well, and we can defer to them for comments. Bryan
- 30 Osborne supports that approach. Eleni asked if any TAC municipalities would like to be included in the
- 31 round of inventories next summer? This question will also be posed to the CWAC next week.
- 32

33 8. 2023 Metropolitan Transportation Plan

- 34 Eleni Churchill, CCRPC, said that staff are updating various sections of the 2023 MTP and will bring an 35 updated draft to the TAC in November or December. The Long Range Planning Committee (LRPC)
- 36
- provided good comments in September, which will be incorporated into the next draft. We will present a 37
- full draft at the January TAC meeting and seek their recommendation for the Board to consider. A memo
- 38 describing an updated schedule is included in the TAC packet. The newly forming Equity Advisory 39 Committee (EAC) will also review the draft MTP between January and March and provide comments
- 40 with a focus on equity. Staff will be back to present the Draft MTP to the TAC and LRPC in April, then
- 41 to the Board with a request to warn a public hearing. The goal is for MTP adoption in June 2023.
- 42

43 9. VPSP2 Update

- 44 Christine Forde, CCRPC, gave an update on the Vermont Project Selection and Prioritization Project
- 45 (VPSP2) bridge project selections and TAC comments to VTrans, which is included in the TAC packet
- 46 agenda item memo. One bridge was selected, and the table lists the remaining projects that were not
- 47 selected. VTrans selected fewer bridges than anticipated based on a variety of factors. They anticipate
- 48 selecting more bridges about a year from now. We can provide comments on the list, which does not need
- 49 approval since it's already been submitted. The agenda item memo includes some comments that CCRPC
- 50 will submit to VTrans and asked if TAC members have other comments to contribute.
- 51
- 52 Bryan Osborne asked that the road name be changed to Colchester Pond Road. Norm gave thanks for
- 53 including the Queen City Park Road bridge. Adele asked if we can include equity or environmental

- 1 factors as part of the evaluation. Christine asked if Adele could provide specific wording. Christine
- 2 questioned if there are water quality issues with the marina on the other side of Bay Road bridge. Adele
- 3 asked Jason if there are projects from the recently completed Shelburne Walk Bike Study to include.
- 4 Jason said he can't think of any at the moment.
- 5 BARBARA ELLIOT MADE A MOTION THAT THE TAC RECOMMEND COMMENTS PREPARED
- 6 BY STAFF WITH EDITS BE FORWARDED TO THE BOARD FOR REVIEW AND RECOMMEND
- 7 SUBMISSION TO VTRANS FOR CONSIDERATION IN THE VPSP2 PROCESS. THE MOTION
- 8 WAS SECONDED BY SANDY THIBAULT. THE MOTION PASSED UNANIMOUSLY.
- 9

21

10 10. **Status of Projects and Subcommittee Reports**

11 See bulleted list at the end of the agenda for current CCRPC projects. TAC members are encouraged to 12 ask staff for more information on the status of any of these on-going or recently completed projects. 13

14 11. **CCRPC Board Meeting Report**

- 15 In September the Board adopted the resolution of the 2022 Chittenden County Multi-Jurisdictional All 16 Hazards Mitigation Plan, heard updates on the Regional Park and Ride Plan and the Active Transportation 17 Plan, reviewed committee member assignments, heard an update on the Equity Advisory Committee
- 18 formation, and miscellaneous updates from the Executive Director. 19

20 12. **Chair/Members' Items**

- VTrans 2023 Municipal Highway and Stormwater Mitigation Projects grant program: • 22 Application and program guide can be found at: http://ytrans.vermont.gov/highway/Municipal-23 Highway-and-Stormwater-Mitigation-Program. Electronic applications must be received before 24 1:00 p.m. October 7. Contact Ross.Gouin@vermont.gov.
- 25 • EV Expo at the REV Conference October 27 & 28 at the DoubleTree Hilton in South 26 Burlington, Check out new vehicles, Potential opportunity to attend just the EV Expo without 27 having to register for the whole conference. Contact Peggy ONeill-Vivanco Peggy.ONeill-Vivanco@uvm.edu. 28
- 29 • Diesel Emissions Reduction Act (DERA) funding may be coming this fall: 30 https://dec.vermont.gov/air-quality/mobile-sources/diesel-emissions/vt-diesel-grant. Contact 31 Leigh Martin at (802) 261-0713 or leigh.martin@vermont.gov.
- 33 The next TAC meeting is scheduled for Tuesday, November 1, 2022.
- 34 35 BRUCE HOAR MADE A MOTION TO ADJOURN, SECONDED BY BARBARA ELLIOTT,
- 36 APPROVED UNANIMOUSLY. The meeting adjourned at 10:09.
- 37

32

38 Respectfully submitted, Bryan Davis

CCRPC Transportation Advisory Committee November 1, 2022 Agenda Item 6: Action Item

Transportation Improvement Program TIP Amendment

Issues: Make the change listed below to the FY23 year of the TIP. The FY2023-2026 TIP has not yet been approved by FHWA so these changes will apply to both the FY2022-2025 TIP, which remains in effect, and the FY2023-2026 TIP.

Main Street Winooski River Bridge, Burlington-Winooski (Project BR070, Amendment FY23-02)

- Description of TIP Change: Add \$1,000,000 in federal grant funds for preliminary engineering in FY23 and \$1,000,000 in federal grant funds for preliminary engineering in FY24. Right-of-way and construction funds will be added when the schedule is confirmed.
- Reason for the Change: This project was awarded a \$24.8 million Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Grant to replace the 93-year old Winooski River Bridge. The construction estimate is \$43.7 million and will be funded with 80 percent federal funds, 10 percent state funds, and 10 percent local funds. Construction schedule is to be determined.

Staff Recommendation: Recommend that the Board approve the proposed TIP Amendment

For more information	Christine Forde
