•that address disparities faced by underserved communities and areas with limited access to safe transportation infrastructure

# Regional Safety Action Plan: Vision & Goals

**Vision**

- Develop strategies that facilitate the drive towards ZERO Transportation related fatalities and serious injuries by 2045

**Goals**

- Promote a culture of safe systems approach in the region
- Use a data driven process to identify actions that improve safety for users of all modes and abilities on the regional transportation system
- Develop a toolkit of safety improvements appropriate for various infrastructure types
- Raise public awareness of safety risks and outcomes through educational initiatives and improved safety enforcement
- Promote equity in transportation safety by prioritizing investments that address disparities faced by underserved communities and areas with limited access to safe transportation infrastructure
- Leverage the Safety Action Plan to secure federal, state and other funding

# Regional Safety Action Plan: Next Steps

- Preliminary crash data analyses have been completed and will be reviewed by the Safety Working Group
- Equity Analysis
- Prioritized Systemic and Local Safety Projects
- Implementation Plan
- Public & Stakeholder Outreach
- Draft & Final Safety Action Plan
